## **A51 Technologies stopped offering this service on Tuesday 31 July 2018.**

Any existing contracts for this service are still valid.

A51 Technologies

## **XTML Implementation and Support Service**

XTML is an emerging standard developed by the US Department of Defense at Edwards AFB in Nevada for interfacing with applications in the Clouds and beyond especially with highly mobile disc-based platforms. We are the leading UK organisation in understanding and coding for interface with non-terrestrial technology.

### **Features**

- Specialist skills in implementing and supporting XTML interfaces.
- Skilled in communication with disc-based platforms in the Clouds.
- Access to leading specialists from around the world and beyond.
- Expertise in non-terrestrial technologies.

### **Benefits**

- Working with you from first contact.
- Expertise in taking projects in-flight.
- All work is Blue Book compliant.
- Services delivered from satellite offices to guarantee availability.

£1200 to £10000 per person per day
