

Subject: Landslides and Liquefaction

Sent: 15 Jun 02

I found the following to be useful for helping to understand what degree slope is somewhat safe to build on for given soil conditions.

APPENDIX E: GEOLOGIC ENVIRONMENTS LIKELY TO PRODUCE
EARTHQUAKE-INDUCED LANDSLIDES

http://www.consrv.ca.gov/dmg/pubs/sp/117/appen_e.htm

CHAPTER 5: ANALYSIS AND MITIGATION OF EARTHQUAKE-INDUCED
LANDSLIDE HAZARDS

http://www.consrv.ca.gov/dmg/pubs/sp/117/chap_5.htm#figure_1

CHAPTER 6: ANALYSIS AND MITIGATION OF LIQUEFACTION HAZARDS

http://www.consrv.ca.gov/dmg/pubs/sp/117/chap_6.htm
